DETAILED OFFICE ACTION

Election/Restrictions

Claims 1- 45 are pending in this application.

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-3, 12-16, 32-34 drawn to a self-aligned contact pair semiconductor device, classified in class 257, and subclass 900.

Group II. Claims 4-11, 17-31, 35-45 drawn to process of making a semiconductor device, classified in class 438, and subclass 184.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of following can be shown: (1) that the process as claimed can be use to make other and materially different product or by hand, or (2) that process as claimed can be made by another and materially different process. (MPEP § 806.05(f)). In the instance case unpatentabilities of the group I invention would not necessarily imply unpatentability of the group II invention, since the device of the group I invention could be made by the processes materially different from those of the group II invention, for example, in the claim 17 a method for making the device of claim 12, wherein the step of forming the bit lines can be executed first and the step of forming the second direct contact pads can be executed second which is a materially different method from claim 17 and the same structure of claim 12 will resulted. .

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, the fields of

Art Unit: 2818

search are not co-extensive. Therefore, separate examination would be required and restriction for examination purposes as indicated is proper.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
